Making a difference through fine food

CHILLED CHRISTMAS 2023 CATALOGUE

Chilled Christmas 2023

Christmas is our busiest time of year within the speciality sector, each year it feels like the run up starts earlier! It's a time of year that we see families come together and a time to reconnect and meet up with friends.

Fiona Latham
Chilled Buyer

Food and drink serve as excellent means to bring people together, and they align with the continuation of cherished family traditions while paving the way for the creation of new ones. Customers will still go back to those brands that remind them of Christmas's past, nostalgia will always play a part. With this our range keeps with tradition and adding some newness for those customers that are on the look out for something new!

Key themes that have been highlighted within the brochure are Christmas morning breakfast, salmon, eggs and bacon. Boxing Day luncheon – pies, cold meats, dips and anti pasti lines and entertaining with cold meat platters and cheese boards. Indulgence is still key and consumers buy with their eyes, so inviting displays will encourage traction and impulse buying. Great to use ambient product dual placement with crackers, condiments on top of deli counters as we know many of you do.

New for this year are our award winning Toppings Pies that offer both retail packs and

loose product, perfect for your deli range! They not only look fabulous but the taste also matches the appearance. To impress your guests with a point of difference from just a sausage roll, we have blini's from Crepe Cuisine perfect for a smoked salmon topping or a Pâté.

Our top selling product of 2022 was Macneil's Smokehouse, Smoked Salmon

In addition to our ambient range, the launch of our frozen range back in May, also strengthens our offer for Christmas, more options within desserts and party food.

Wishing you all a great Christmas this year.

Clarence Court's fascinating story starts with Clarence Elliott in 1928, when the botanist and explorer brought jungle fowl back from Patagonia to Stow-on-the-Wold, Gloucestershire. Clarence's rare birds were crossbred to create pedigree hens, and generations later, they still lay superlative, colourful, hard-shelled eggs with the most exquisite, deep golden yolks.
